

Customer Journey Map

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Discovers OptiCrop via search/referral • Visits Home page to learn the purpose • Reads About page for details on how it works	• Navigates to FindYourCrop page • Enters soil & climate values (N, P, K, temperature, humidity, pH, rainfall) • Submits the form for prediction	• Views the recommended crop result • Compares recommendation with own knowledge/experience • Decides whether to plant the suggested crop
Touchpoint <i>What part of the service do they interact with?</i>	• Website Home page • Website About page • Navigation menu	• FindYourCrop input form (HTML) • Flask backend / ML prediction engine	• Prediction result display • (Optional) Report/summary output
Customer Thought <i>What is the customer thinking?</i>	• "Can this really help me choose a better crop?" • "Is this trustworthy and easy to use?" • "What information will I need to provide?"	• "Am I entering these values correctly?" • "Will the app understand my specific soil/climate conditions?" • "How accurate will this prediction be?"	• "Does this crop actually suit my land and conditions?" • "Should I trust this recommendation over my own experience?" • "What else should I know before planting?"

Customer Feeling <i>What is the customer feeling?</i>	• Curious • Hopeful • Slightly skeptical	• Focused • Mildly uncertain • Engaged	• Confident (if recommendation matches expectations) • Reassured • Occasionally doubtful if unfamiliar crop is suggested

Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Process Ownership <i>Who is in the lead on this?</i>	Frontend/UI Team (Home & About pages)	Backend/ML Team (Flask app + trained model integration)	Farmer/End-User, supported by Product/Support Team for feedback
Opportunities <i>How can we improve this stage?</i>	• Add testimonials or success stories • Clarify benefits with simple visuals • Simplify navigation	• Add tooltips/help text explaining each input field • Add input validation with helpful error messages • Allow saving/reusing past inputs	• Add explanation of <i>why</i> a crop was recommended • Provide resource optimization tips (water, fertilizer) • Offer seasonal follow-up recommendations
