

Project Initialization and Planning Phase

Date	23 June 2026
Team ID	SWTID-2026-7169
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
A farmer seeking higher crop productivity.	Select the most suitable crop for my soil and climate.	I cannot accurately identify which crop will provide the best yield.	Traditional farming decisions rely on guesswork and limited agricultural knowledge.	Uncertain about my farming decisions and expected income.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A farmer seeking higher crop productivity.	Select the most suitable crop for my soil and climate.	I cannot accurately identify which crop will provide the best yield.	Traditional farming decisions rely on guesswork and limited agricultural knowledge.	Uncertain about my farming decisions and expected income.
